PRODUCT FEATURES

Material Die-cast Aluminum

Gasket Molded Silicone

Hardware Four 8-32 stainless steel screws

DESCRIPTION

Patented extension ring system allows for proper placement of finished steplight components when the recessed housing has been improperly positioned within a wall (too deep). The ER-1501 ring extends the recessed housing towards final surface by $\frac{3}{8}$ " for each ring used.

OPTIONS

- ER-1501-1** Single ring extension accommodates a recessed measurement of 0" – $\frac{3}{8}$ "
- ER-1501-2** Two ring extension accommodates a recessed measurement of $\frac{3}{8}$ " – $\frac{3}{4}$ "
- ER-1501-3** Three ring extension accommodates a recessed measurement of $\frac{3}{4}$ " – 1 $\frac{3}{8}$ "
