PRODUCT FEATURES

Material Die-cast Aluminum

Gasket Molded Silicone

Hardware Four 8-32 stainless steel screws

DESCRIPTION

Patented extension ring system allows for proper placement of internal components when the recessed housing has been improperly positioned within a wall (too deep). The ER-WMB ring extends the recessed housing towards final surface by $\frac{3}{8}$ " for each ring used.

OPTIONS

- ER-WMB-1** Single ring extension accommodates a recessed measurement of $0" - \frac{3}{8}"$
- ER-WMB-2** Two ring extension accommodates a recessed measurement of $\frac{3}{8}" - \frac{3}{4}"$
- ER-WMB-3** Three ring extension accommodates a recessed measurement of $\frac{3}{4}" - 1 \frac{3}{8}"$
