INSTALLATION INSTRUCTIONS

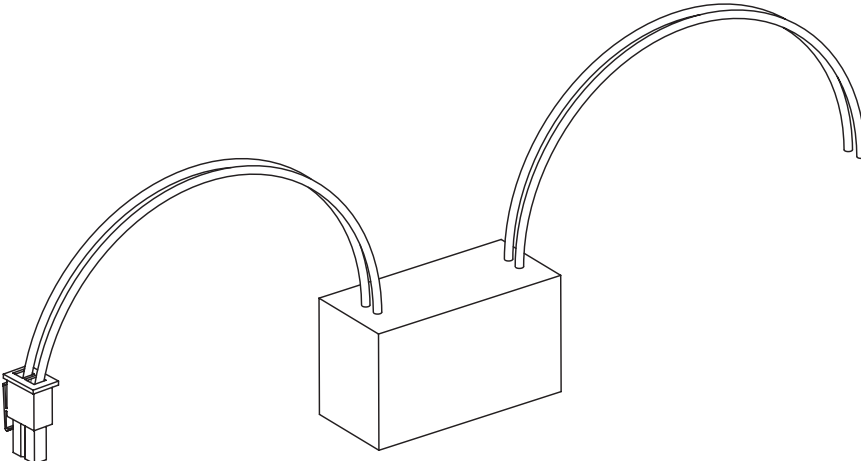

ICC-150

ACCESSORIES

Irrigation Controller Coupler

TOOLS REQUIRED FOR INSTALLATION:

- Wire stripper
- Appropriate wire connectors

WARNING: All accessories must be installed in accordance with the National Electrical Code (NEC) and local codes. Failure to do so will void the warranty and may result in serious injury and/or damage to the luminaire.

DO NOT USE EXTENSION CORDS ON POWER UNITS.

NOTE: Always use UL recognized wire connectors for connections.

NOTE: Save these instructions for future reference.

IRRIGATION CONTROLLER COUPLER INSTALLATION:

1. For use with RPM-100 or RP Series Transformers only
2. Remove power to transformer and irrigation controller
3. Connect wires to leads from irrigation controller
4. Connect white connector from ICC-150 to white receptacle on RPM-100
5. Set RPM-100 for "Dawn to Dusk"
6. Reconnect power
