SPECIFICATIONS

DESCRIPTION:

1188TG LED Tree Grate fixtures are designed for use in cast tree grates. The 1188TG includes factory sealed LED module with integrated driver, fully potted and thermally protected. (In-Grade junction box sold separately).

DOOR:

TYPE III hard anodized/powder coat Die-cast A360 aluminum.

Captive stainless steel fasteners affixed to a ventilated door. Inner vents allow hot air to escape from around optic housing while outer vents allow cool air to enter fixture housing. Corrosion barrier liner included on underside of door to minimize galvanic corrosion between grate and fixture.

OPTIC HOUSING:

TYPE III hard anodized and Thermkote treated Die-cast A360 aluminum. Finned for maximum heat dissipation. Optic and driver compartment separately sealed while being electrically connected.

HOUSING TUBE:

Ø11%16" SDR35 heavy walled drain tube. 12" long with Black finish.

DRIVER COMPARTMENT:

Injection-molded PPS for maximum corrosion protection. Driver compartment houses electronic LED driver and thermostat which cuts power to fixture in abnormal ambient temperature conditions. Driver compartment is completely epoxy potted to protect electronics from moisture.
