

## INSTALLATION INSTRUCTIONS

**WARNING:** Luminaire must be installed and grounded in accordance with the National Electrical Code (NEC) and local codes. For portable stake or surface mount using a cord and plug, the luminaire must be plugged into a receptacle protected by a ground fault circuit interrupter (GFI). Failure to do so may result in serious injury and/or damage to the luminaire.

**MAINTENANCE:** To assure proper operation and efficiency and to prevent luminaire overheating, lens must be kept clean and free of dirt, dust, leaves, trash and mineral deposits from water. A regular schedule maintenance program is recommended.

**SAFETY WARNING:** Luminaire can become very hot depending on the lamp wattage used. Lens and housing around the lamp can become hot enough to blister hands. Particular care should be taken not to locate luminaires where small children can reach them if high wattage lamps are used.

**NOTE:** Always use UL recognized wire connectors for connections.

**NOTE:** Save these instructions for future reference.

**LUMINAIRE IS UL LISTED FOR ABOVE GRADE INSTALLATION ONLY.**

### LUMINAIRE MOUNTING (Infinity Knuckle):

1. Make sure electrical supply is off at circuit breaker before starting luminaire installation or servicing luminaire.
  2. Thread luminaire onto junction box or other mounting device until it is at desired direction using thread sealant. Tighten jam nut (provided) to ensure the luminaire is locked to adjusted position.
  3. Attach luminaire leads to line in leads observing polarity, black to black, white to white and green to ground using silicone filled safety connectors (provided).
  4. Attach junction box cover with luminaire to junction box. Make sure not to pinch wires between cover and box.
  5. Coat exposed luminaire threads with thread sealant to keep moisture from entering junction box or other mounting device.
  6. To adjust luminaire aiming angle, untighten adjustable knuckle screw. Do not disengage totally. Hold luminaire at selected angle and tighten knuckle screw firmly.
  7. Install lamp.
- NOTE:** If an R type lamp is used with this luminaire, a lensed shroud must be installed at all times.
8. Coat all exposed screws with silicone grease.
  9. Supply power to the luminaire and check for proper operation.
- NOTE:** This luminaire comes with a high-temperature drain plug, for use when the luminaire is installed in a down-lighting position. When installed in a up-lighting position, do not cover drain plug.

## LAMP INSTALLATION / REPLACEMENT INSTRUCTIONS

**IMPORTANT SAFETY INSTRUCTIONS**  
**THE LIGHTED LAMP IS HOT!!**

**WARNING - TO REDUCE THE RISK OF FIRE, OR INJURY TO PERSONS:**

1. Turn off/unplug and allow to cool before replacing lamp.
2. Lamps get hot quickly! Contact only switch/plug when turning on.
3. Do not touch hot lens, guard or enclosure.
4. Keep lamp away from material that may burn.
5. Do not touch the lamp at any time. Use a soft cloth. Oil from the skin may damage lamp.
6. Do not operate luminaire fitting with a missing or damaged cover.

**SAVE THESE INSTRUCTIONS**

**CAUTION:** Do not exceed maximum wattage marked on luminaire label.

1. To prevent electrical shock, disconnect transformer from electrical supply before service.
2. Loosen screw from shroud.
3. Remove shroud and gasket to expose lamp.
4. Replace lamp with correct wattage and type marked on fixture label.

**NOTE:** DO NOT touch lamp with bare hands. Always use soft cloth or the plastic wrapping (if available) to handle the lamp.

5. Re-install shroud and gasket and tighten shroud screw.

Lamp Information		
Model	Lamp Type	Max Watts
1007	R40*, PAR38 Incandescent or HID**	175

\*If "R" type lamp is used, an optional lensed shroud must be installed.

\*\*HID luminaires require a ballast
