PROJECT:

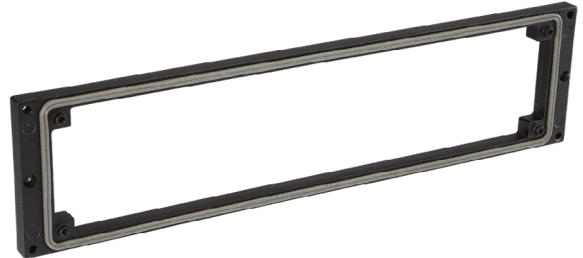

PRODUCT FEATURES

Material Die-cast Aluminum

Gasket Molded Silicone

Hardware Four 8-32 stainless steel screws

DESCRIPTION

Patented extension ring system allows for proper placement of finished steplight components when the recessed housing has been improperly positioned within a wall (too deep). The ER-1505 ring extends the recessed housing towards final surface by 3/8" for each ring used.

OPTIONS

ER-1505-1 Single ring extension accommodates a recessed measurement of 0" – 3/8"

ER-1505-2 Two ring extension accommodates a recessed measurement of 3/8" – 3/4"

ER-1505-3 Three ring extension accommodates a recessed measurement of 3/4" – 1 3/8"
